

Diabetes is a difficult disease! Treating diabetes with medicine works but you might want to reverse your diabetes naturally. There are different ways to control diabetes naturally. Here you will find a selection of pure **therapeutic essential oils** that will help you **manage your diabetes**. You may, at the beginning use them with your normal medication and track results.

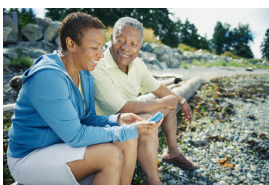

If you have a diabetic in your family or among your friends, you might want to show them how to naturally treat diabetes and motivate them towards a healthier lifestyle. We have prepared some kits for you to give them. They combine the power of essential oils with a healthier lifestyle and bring some fun to an otherwise sad disease.

The goal of diabetes treatment is to keep blood sugar levels within the normal range as much as possible. People with diabetes benefit greatly from learning about their disorder, understanding how diet and exercise affect their blood sugar levels, and knowing how to avoid complications. Diabetes is an epidemic.

17 million Americans have diabetes . . . with 5.9 million completely unaware that they even have the disease. Diabetes is the 5th leading cause of death in the United States . . . with over 200,000 deaths each year from diabetes-related complications. Among U.S. adults, diagnosed diabetes increased 49% from 1990 to 2000. Similar increases are expected in the next decade and beyond.
